PROFILE SUMMARY

Full-Stack Web Developer experienced in building responsive React applications and secure REST APIs with Node.js and Express, backed by PostgreSQL and MongoDB. Skilled in authentication, role-based access control, and deploying web applications used by real users.

EDUCATION

Daffodil International University

Jan 2023 – Dec 2026 (Expected)

B.Sc. in Computer Science and Engineering CGPA: 3.85 / 4.00

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming (Java), Databases, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Machine Learning, Engineering Economics

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, C/C++, SQL, HTML5, CSS3

Frontend: React, Next.js, TanStack Query, Recharts, Tailwind CSS, Shadcn UI, Progressive Web Apps (Workbox)

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC), Prisma ORM, Spring Boot

Databases: PostgreSQL, MongoDB, MySQL

Tools & Services: Git, GitHub, Postman, Firebase (Authentication, Cloud Messaging), Stripe, Cloudinary, Vercel

PROJECTS

Admission Test Management System

Frontend Developer | Daffodil International University Sep 2025 – Present

Digital platform replacing the manual admission-examination process of the CSE Department, facilitating admission exams for nearly 600 students in the latest examination cycle.

- Built the React admin and candidate portals for a role-based exam platform, developed with a **6-member** student team, replacing manual exam scheduling, candidate management and result publishing.
- Developed and maintained role-specific interfaces for exam administrators and candidates, covering online examinations and result publication.
- Integrated the frontend with **139** Django REST endpoints to handle data fetching and render exam, candidate and result content dynamically.
- Helped deploy to production on a VPS (Nginx, custom domain, SSL); platform is now being rolled out across **6** university faculties.

CampusCart

(Daffodil International University) Live Site

Live multi-vendor e-commerce and peer-to-peer marketplace for the Daffodil campus community.

- Built three role-based portals (Buyer, Vendor, Admin) with product catalog, cart/checkout, cash-on-delivery, multi-stage order tracking, and classifieds for used items and room rentals.
- Developed 30+ REST APIs with Node.js, Express.js and Prisma ORM on PostgreSQL, implementing JWT authentication, RBAC and transactional order-state transitions.
- Integrated Firebase Cloud Messaging for cross-device push notifications on order and vendor events; implemented a PWA with Workbox service workers for offline caching.
- Automated Cloudinary media uploads with client-side image compression; deployed on a custom domain.

ZapShift

Live Demo

Parcel booking, delivery tracking and logistics management web application.

- Implemented Firebase authentication (OAuth/email), RBAC (Admin, Rider, User) and parcel status tracking.
- Built delivery-analytics dashboards with React, Recharts, TanStack Query and Tailwind CSS.
- Developed secure REST APIs with Node.js, Express.js and MongoDB, including Stripe payment processing; deployed on Vercel.

Sharif Smriti Foundation Website

Live Site

Bengali-language marketing website for a solar street-light initiative in Pirojpur.

- Built a mobile-first Next.js site presenting 4 pricing packages, success stories and guarantees.
- Drove direct customer inquiries via one-tap call/WhatsApp CTAs and SEO-optimized metadata.
- Deployed on Vercel with Blob-hosted images for fast loading on mobile devices.

CERTIFICATIONS & ACHIEVEMENTS

- Solved 300+ problems on Codeforces and LeetCode (Data Structures and Algorithms).
- Java Spring Boot Course Certificate – full-stack Spring Boot training with hands-on project work. Certificate
- AI Hackathon Participant – AI Dev Fest 2026, Daffodil International University. Certificate
